

Tasks to Do:

1. Use Tailwind CSS & NEXT JS to clone the full UI -

Figma File Link :

[https://www.figma.com/file/6bJxpOkLJjZnZvAEEx3INm/Web-Frontend-Test-\(IRD\)?type=design&node-id=0-1&mode=design](https://www.figma.com/file/6bJxpOkLJjZnZvAEEx3INm/Web-Frontend-Test-(IRD)?type=design&node-id=0-1&mode=design)

2. Make sure that the fronted design will be the same as our given link & make the entire site responsive.

Submission Guidelines

- Push your code to a **public repository on GitHub** and give the repo link in mail.
- After Running the project Locally, you must make a screen video of the running project and explain, then upload it to **Google Drive > Share Anyone can view**, and submit the **Video Link** in mail.
- Without **Github Code** and **Recorded Video Link** your Tasks will not be Accepted.
